

Honda Izy Buying Guide

HONDA IZY – Now it's easier than ever to mow your lawn

The Izy family of mowers boasts five different machines so that whatever the style, type or size of your lawn, it will be easy to cut. You can choose from three cutting widths - 41 cm, 46cm and 53 cm - in either self propelled or push models. As a general guide, the 41 cm Izy caters to gardens less than half a tennis court in size, the 46cm models is designed for gardens up to tennis court in size, and the 53 cm for anything bigger.

Gardener's World Number One Mower

Gardeners' World Magazine's Tried & Tested team named our HRG415 PD Izy mower their No.1 for ease of use, range of features and quality for the price.

HRG 415 PD

HRG, 415 PD, or Izy as it is known. Izy is expressly designed to get the mowing job done as quickly as possible. Not only that, you'll find Izy makes mowing more of a pleasure and less of a chore: it is easier to start, handle and operate than many other lawnmowers. As a general rule the 41cm Izy caters for gardens less than half a tennis court in size. A push model is ideal for smaller gardens kept regularly in good trim.

HRG 415 SD

The 415 SD model is the power version of the 41 cm Izy 415. It has the same features as the 415 PD above, but should you need to cut around trees and other objects, if your garden features slopes and inclines, or you don't mow your lawn very often, then a power mower is essential.

HRG 465 PD & HRG 465 SD

As a general rule the 46cm Izy caters for gardens up to a tennis court in size. A push model (465 PD) is ideal for medium sized gardens kept regularly in good trim, without slopes and inclines. The power model (465 SD) copes with cutting around trees and other objects as well as slopes and inclines and also if you don't mow your lawn very often.
