

Mountfield Lawnmower Buying Guide

Mountfield is the UK's number 1 manufacturer of petrol engine rotary lawnmowers and has held this distinction since the early 1960s. All Mountfield products are designed to ensure the gardening experience is a pleasure, to make tasks easier and allow you to take pride in a job well done.

As a leading seller of Mountfield mowers, you will find an extensive range of Mountfield mowers in stock at Godfreys. If however, the mower of your choice is not shown on our website, please call 01732 749660 as we are able to source at short notice.

Mains electric mowers

Electric lawn mowers are quiet, lightweight and easy to use. They are ideal for smaller gardens where an electricity supply is close to hand. There are 6 models in the Mountfield electric range.

Princess 14 – a well established favourite with a justified reputation as the quality electric mower for smaller lawns. Powered by a quiet 1150 watt, brushless induction motor this high specification machine has central height of cut adjustment and a rear roller. The rear roller not only gives stability when you are cutting around flower beds and up to path edges, it also leaves a beautiful striped finish to your lawn.

EL350, EL390 and EI410 models – three models make up this range of stylish 4-wheel electric mowers. Available in 33cm, 35cm or 39cm cutting widths with 1100 watt, 1300 watt or 1500 watt motors respectively they all offer high performance at excellent value for money.

EL46R HP and EL46R PD - With powerful motors, robust steel cutter decks and 46cm cutting widths these mowers offer a mains electric option for medium size lawns. Both models have rear rollers that give a striped effect finish to your lawn and also provide control around flower beds and borders. The EL46R HP is hand propelled with a 1600 watt motor but if you want to make cutting your grass even easier choose the 1800 watt power driven EL46R PD.

Comparison table – Mountfield Electric Mowers

Model	Type	Motor	Width of cut	Chassis	Height of cut	Height of cut adjustment	Grassbag	Weight	Warranty
EL350	4 wheel	1100 w, hand propelled	33cm/13"	Polyprop-Ylene	25-55mm, 3 positions	Wheel position	27 litres	12.5kg	1 year
EL390	4 wheel	1300 w hand propelled	37cm/15"	Polyprop-Ylene	25-55mm, 3 positions	Wheel position	35 litres	14.5kg	1 year
EL410	4 wheel	1500 w, hand propelled	39cm/16"	Polyprop-Ylene	23-62mm, 5 positions	Single point	50 litres	19.5kg	1year
Princess 14	Rear roller	1150 w, hand propelled	35.6cm/14"	Polyprop-Ylene	13-50mm infinite	Single point	30 litres	18kg	2years
EL46R HP	Rear Roller	1600 w, hand propelled	46cm/18"	Pressed steel	20-70mm, 5 positions	Individual levers, single rear	55 litres	28kg	2 years
EL46R PD	Rear Roller	1800 w, power driven	46cm/18"	Pressed Steel	20-70mm, 5 positions	Individual levers, single rear	55 litres	30kg	2 years

Steel 4 Wheel Mowers

Petrol engine mowers are an ideal choice for larger areas, they are more powerful than mains electric mowers and not restricted by a cable. Modern engines are easy to start – especially Mountfield's powerful RV150 and RM45 engines.

Developed specifically for lawnmower applications Mountfield engines comply with stringent noise and vibration legislation even when powering the cutting blade at 3000 rpm –the optimum speed for high performance. Variable throttle control allows you to adjust the engine speed if required.

Suitable for general purpose use these 4 wheel mowers provide an excellent finish on all types of lawn and have robust steel chassis for longevity.

421HP & 461HP - With a choice of 41cm or 46cm cutting widths these hand propelled models have 5 cutting heights which are adjusted using individual levers. Hand propelled mowers have to be pushed to make them move forward, the engine provides power to the cutter blade. They are extremely manoeuvrable, economical and easy to use.

461PD & 511PD - If you have large lawns or slopes a mower with power drive will make cutting the grass much easier. As well as rotating the cutter blade the engine also drives the rear wheels so you don't have to push the mower forward. Available with 46cm or 51cm cutting widths both these machines offer excellent value for money.

Steel 4 Wheel Mowers

Powered by recoil start Briggs & Stratton or Honda engines or the Mountfield RM65 electric start engine, there are 9 more models in Mountfield's highly affordable range of steel chassis 4 wheel mowers.

From recoil start hand propelled or power drive machines to models with electric key start these robust mowers are designed to provide an excellent finish on all types of lawn. They represent outstanding value for money and are backed by Mountfield's reputation for excellence.

420HP, 422HP & 460HP - With easy start Briggs & Stratton or Honda engine options these hand propelled models are available with 41cm or 46cm cutting widths and have individual height of cut adjusters giving 5 cutting heights. Hand propelled mowers have to be pushed to move forward, the engine provides power to rotate the cutter blade.

460PD, 462PD, 510PD & 512PD - Available with Briggs & Stratton or Honda engines these power driven models have drive to the rear wheels as well as the cutter blade to make light work of mowing larger lawns or slopes. Choose from either the 46cm or 51cm cutting widths depending on the size of your garden.

463PD/ES and 513PD/ES - Mountfield's powerful RM65 electric key start engines make life even easier, simply turn a key to start them just like on a car. Combine this with power drive and you have a machine that is simplicity itself to use. Again, you have a choice of either 46cm or 51cm cutting widths to suit your individual requirements.

Steel Roller Mowers

Now you can have that highly desirable classic striped effect finish to your lawn at an affordable price. With full width rear rollers you'll find hand propelled or power drive, recoil or electric key start options in this product line-up. You also have a choice of Briggs & Stratton or the latest Mountfield engines. All this range have robust steel chassis, a 46cm cutting width and easy to adjust height of cut with 5 settings ranging from 20mm-70mm.

461R HP - Powered by a Mountfield RV150 engine this hand propelled version is the opening model in this range of roller mowers.

461R PD - On this power driven machine the engine provides drive to the rear roller as well as the cutting blade. Fitted with Mountfield's powerful Rv150 engine this machine gives a fine finish with little effort.

463R PD/ES - This model has the ultimate specification in this range of roller mowers with an electric key start Mountfield RM65 engine and power drive. The pleasure you get from your beautiful lawn will be enhanced by the ease with which that finish was achieved.

461PD	4 wheel, power driven	Mountfield RV150	46cm/18inch	Recoil	25-75mm, 5 positions	Individual levers, single rear	60 litres	29kg	2 years
462PD	4 wheel, power driven	Honda GCV135	46cm/18inch	Recoil	25-75mm, 5 positions	Individual levers front, single rear	60 litres	28kg	2 years
463PD/ES	4 wheel, power driven	Mountfield RM65ES	46cm/18inch	Electric key	25-75mm, 5 positions	Individual levers, single rear	60 litres	35kg	2 years
2 years 510PD	4 wheel, power driven	Briggs & Stratton XLC50	51cm/20inch	Recoil	25-75mm, 5 positions	Individual levers front, single rear	60 litres	33kg	2 years
511PD	4 wheel, power driven	Mountfield RV150	51cm/20inch	Recoil	25-75mm, 5 positions	Individual levers front, single rear	60 litres	34kg	2 years
512PD	4 wheel, power driven	Honda GCV135	51cm/20inch	Recoil	25-75mm, 5 positions	Individual levers front, single rear	60 litres	33kg	2 years
513PD/ES	4 wheel, power driven	Mountfield RM65ES	51cm/20inch	Electric key	25-75mm, 5 positions	Individual levers front, single rear	60 litres	38kg	2 years
461R HP	Rear roller, power driven	Mountfield RV150	46cm/18inch	Recoil	25-75mm, 5 positions	Individual levers front, single rear	55 litres	29kg	2 years
461R PD	Rear roller, power driven	Mountfield RV150	46cm/18inch	Recoil	25-75mm, 5 positions	Individual levers front, single rear	55 litres	31kg	2 years
463RPD/ES	Rear roller, power driven	Mountfield RM65ES	46cm/18inch	Electric key	25-75mm, 5 positions	Individual levers front, single rear	55 litres	35kg	2 years

Aluminium 4 Wheel Mowers

These rugged, versatile, high specification machines have forged aluminium chassis which carry a 20 year anti-corrosion warranty. Designed to cope with the most arduous of workloads they also feature Mountfield's 3-in-1 Combi versatility. This Combi system offers you a choice of grass collection, rear discharge or, with the clip-in mulching plug fitted, an excellent recycled finish. When used as a mulching mower grass clippings are cut and re-cut into fine particles that are blown down into the turf to recycle valuable nutrients as well as eliminating grass collection and disposal. With single lever

height of cut adjustment, free running ball bearing wheels and ergonomic controls these products are amongst the most desirable in the Mountfield portfolio.

M41HP – This hand propelled mower is available with a Mountfield RV150 engine which provides ample power for highly efficient performance. It has a 48cm working width plus the versatility provided by Mountfield's Combi cutting system.

M43PD, M61PD, M63PD – On these models the engine also drives the rear wheels to make cutting the grass even easier. Choose from Mountfield RV150 or RM65 engine options and 48cm or 53cm cutting widths to suit your particular requirements.

M63PD/ES – This top of the range model has all the features and benefits outlined above plus the added advantage of an electric start engine, simply turn the key to start the engine. Caring for larger areas of lawn couldn't be easier!

Aluminium Roller Mowers

For a classic striped lawn finish these premium roller mowers are truly in a class of their own. Designed to care for large areas of lawn, they are powered by Mountfield RM65 engines which have been developed specifically for lawnmower applications. Wide rollers not only give that striped finish they also provide stability and up to the edge cutting around flower beds or up to path edges. A four speed 'Change on the Move' transmission allows variable adjustment of the forward speed up to a maximum of 4.5kph. All models in the range also have single lever height of cut adjustment, ball bearing front wheels and aluminium chassis with a 20 year anti corrosion warranty. This range offers the more discerning user high specification products at unbeatable prices.

483R, 553R – power drive to the roller makes these mowers a pleasure to use; no effort is required to move them forward. Ample power for the 48cm or 53cm cutting blade is provided by Mountfield's RM65 engine, whilst the wide rear roller leaves a perfect striped lawn.

483R/ES, 553R/ES – The ultimate mowing experience is provided by these mowers which offer a choice of 48cm or 53cm working widths. As well as power drive they feature the Mountfield RM65 electric key start engine, just turn the key and you are ready to mow – what could be easier? Only you will know how little effort it took to produce such a beautiful result.
