

A cut above the rest – lightweight, powerful, cordless.

With the new battery-powered hedgecutter AHS 52 LI, cutting through hedges is a breeze. Weighing a mere 2.3 kilos, this isn't just the lightest lithium-ion battery-powered hedgecutter in the world, but it also has the revolutionary Power-Tech system on board. This patented world-first technology means you can cut branches up to 15 mm thick effortlessly and without blocking the blades. With the powerful 18 V lithium-ion battery and up to 50 minutes run-time per charge, the AHS 52 LI can cut through big or small hedges, turning gardening work into a sheer pleasure. You can find out more information from www.boschgarden.co.uk. **You'll be amazed.**
