

No cable, no petrol, but loads of power.

The lawnmower with Bosch
lithium-ion technology.

Cordless means effortless. With the new ultralight battery-powered Rotak 37 LI and 43 LI lawnmowers from Bosch, you're not tied to fixed power sources and can mow up to 300 m² of lawn area without recharging. The first mowers with Bosch lithium-ion technology are always ready for use anywhere. And thanks to the strong 36-volt engine for effortless mowing, now even long grass is bound to come up short.
